

Product Highlights

Operated by two people. It can safely lift you up to a height of up to 18 meters. The Mantall CMP series uses a high-strength aluminum alloy mast and a lifting chain with ten times the load-bearing capacity, making the equipment safer and more stable. The high-strength and high-quality steel base can be used safely even in harsh working environments.

The wide working platform allows you to carry tools more conveniently and has more room for activities.

Mantall also provides you with a dual control system, which you can easily operate whether it is on the ground or on the platform basket. Only Mantall can provide you with such a humanized aerial work platform.

Standard Features

Aluminum platform basket	Lower beeper warning
Polyurethane non-mark tires	Rotation platform
Forklift pockets	Emergency Lower Down
Foldable inclined ladder	Outrigger storage frame
Two controls: platform control and ground control	Maintenance-free battery

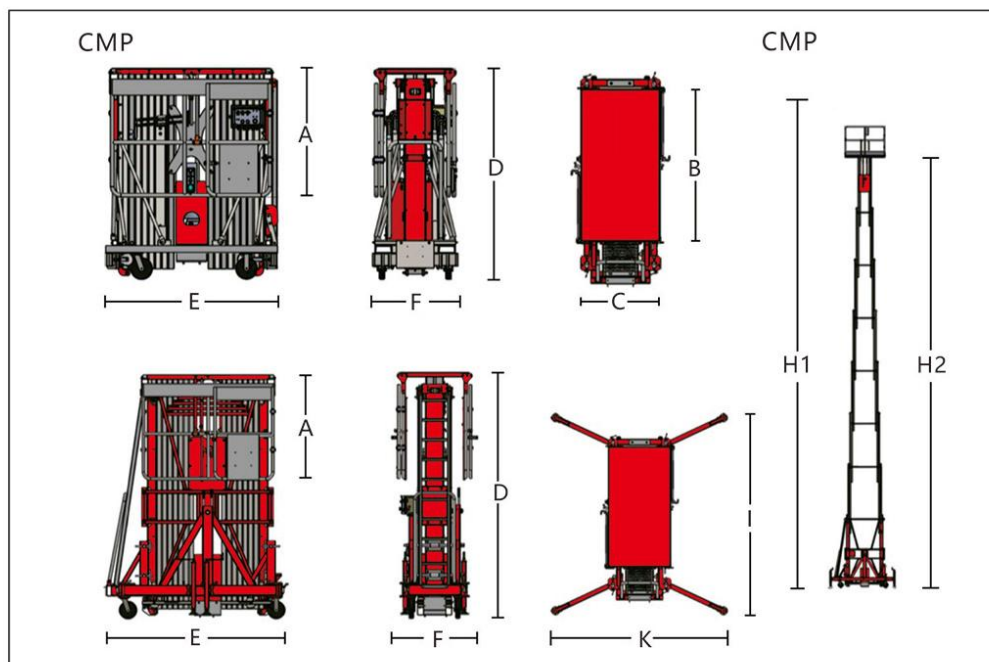

Options Features

Working Flashing light	Auxiliary drive wheel
Tool Box	Top stop Sensor
DC power	Equipment protection cover
